

### PRODUCT DESCRIPTION

New generation water based non toxic anti-corrosive metal primer for use on degreased galvanised steel and rust free, clean dry mild steel, under a range of Heritage Paint's water and solvent based decorative products.

### PRODUCT FEATURES

- An anti-corrosive primer suitable for use in the South African environment.
- Suitable for use on degreased galvanised steel and rust free mild steel.
- Excellent adhesion.
- Excellent, no mess application properties.
- Can be over coated with a range of Heritage Paint decorative water and solvent based products.
- Low odour.

### APPLICATION AREAS

- Degreased and/or weathered galvanised steel.
- Rust free, clean, dry mild steel.

### SURFACE PREPARATION

**Rusted Metal:** Affected areas need to be cleaned back to bright metal by hand mechanical or blast cleaning.

**New Metal:** Surfaces need to be abrasively degreased with Heritage Galvanized Iron Cleaner to remove the manufacturer's grease protective layer this process is repeated until the surface is water break free.

### APPLICATION PROCEDURE

- Brush apply a generous coat of Heritage Water Based Metal Primer to the area, which needs protecting (for very severe cases e.g. in very harsh marine environments two coats of Heritage Water Based Metal Primer are required)
- Allow to dry 2-4 hours before recoating with Heritage Paint's Decorative Water Based products.
- Allow to dry 24 hours before recoating with Heritage Paint's Decorative Solvent Based products.

### GENERAL

- Do not apply before 9am and after 4 pm in the Winter.
- Do not apply exterior if it looks like rain will occur with in 4-6 hours of application.
- Heritage Water based Metal Primer is ready for use un-thinned, thinning with water will reduce its hiding power and anticorrosion protection imparted.
- Although the spreading rate will vary with porosity and type of substrate. For uncoated new work on 6-8 SQM/l for the first coat and 8-10 SQM/l for subsequent coats and for when applied to sealed, previously painted substrates.
- Application equipment clean up is with clean tap water.
- Heritage Water based Metal Primer should never be mixed with other products.
- Heritage Water based Metal Primer should never be used under two pack solvent based products or QD Enamels.

### COLOUR RANGE/QUANTITIES

- Red oxide only
- Available in 1/5/20lt

### PRECAUTIONS

- This product is not flammable, contains no toxic ingredients and very low VOC levels (EU regulations).
